Coca-Cola Co. KO -8.44% reported slightly stronger-than-expected revenue for its latest quarter, boosted by demand for tea, coffee, water and sports drinks, but the beverage company expects sales will slow down this year.

Tea and coffee sales volume rose 3% in the quarter, driven by the growth of Fuze Tea in Europe and a new line of ready-to-drink coffee in Japan. Water, enhanced water and sports drinks increased 1%. Soda declined 1%, while juice, dairy and plant-based beverages declined 2%.

In the quarter, North America soda sales volume took a 1% hit from price increases, despite higher demand for Coca-Cola Zero Sugar and Sprite. The company has been focusing on higher margins over volume gains.

Soda sales have been sliding for much of the past decade as consumers have turned to bottled water and flavored seltzer.

Overall, Coca-Cola's net revenue declined 6% to \$7.1 billion for the quarter, as a result of foreign-currency headwinds and the refranchising of company-owned bottling operations. Analysts polled by Refinitiv had expected sales of \$7.03 billion.

Questions 14 & 15 are based on the following text.

BRUSSELS—The European Union-China summit here Tuesday was meant to bolster cooperation, especially against controversial policies of President Trump. Instead, it is highlighting differences, led by growing trade tensions.

Two years ago, the EU and China seized their summit to hail strengthening ties as a bulwark against Mr. Trump's "America First" policies. Brussels hoped that with Beijing at its side the EU could uphold international rules on issues from climate change to trade.

Tuesday's summit, however, is likely to end up with Europeans questioning their nascent partnership with Beijing and pressing it on unfulfilled promises—demanding China tackle industrial subsidies and end forced technology transfers.

"It's time for the Chinese to walk the talk," an EU official said. "We are not just an advertising billboard for the Chinese."

Ahead of Chinese Premier Li Keqiang's arrival in Brussels for meetings with European Council President Donald Tusk and European Commission President Jean-Claude Juncker, European officials threatened until the last minute to kill a painstakingly drafted joint statement.

They pushed Beijing to accept a deadline to conclude an investment agreement amid increasing frustration with China's refusal to dial down its state capitalism, which Europeans see as harmful.

While the recent shift in the EU signals a tougher stance against China, Europeans are still reluctant to take steps that would undermine the international order underpinned by the World Trade Organization. EU officials said they want to coax Beijing into action, rather than slapping it with huge tariffs as Mr. Trump did to force China into negotiations.

- 14. According to the passage, the EU officials made what assumption going into negotiations?
 - A) China is finally ready to compromise on efforts to stem climate change.

- B) China's struggle with the trade war is pressing enough on the economy that the nation's leaders would be willing to cooperate with the Europeans on other matters of international affairs.
- C) The EU representatives need to harass Chinese officials in order to convince the government to make concessions.
- D) China has no interest in working with the EU.
- 15. Which of the following statements, if true, would weaken the EU's stance?
 - A) Together, the EU and China would be able to put an end to the trade war.
 - B) President Trump's aggressive strategies are hurting is chance at securing fair international trade.
 - C) Historically, softer negotiation techniques have been highly effective with the Chinese.
 - D) The changes in international trade and environmental regulations would hurt China's global position more than the trade war with America.
